

Celtic Magic: FEATHER Joystick & Mouse

Knob Options

As the force to operate a Feather is adjustable down to very low levels only two options of knob are suitable to be used if the Feather is set to be at its most sensitive.

Other knob options are not recommended for the lightest (5g) force option as the heavier knobs will tend to hold the Feather off centre.

Dimpled cork option

Indented 120 degrees to aid grip
Add 'D' to part number ie CM/Knob-SCD

Small Cork

20mm diameter

Suitable for ultra light operation
5g-20g.
