Dual Switch Assembly

part **CM/SSA**
part **CM/DSA**

Warnings

The Feather uses small magnets within its construction and although no stronger than what would be found in headphones those users with pacemakers should be aware and take precautions and advice before using a Feather device.

The Feather joystick has an exchangeable knob that would be a choking hazard to small children.

The Feather is a very sensitive device. Avoid leaving the in direct sunlight that may cause small distortions affecting its accuracy.
